2. Claims 1-19 are presented for examination.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:
Claims 1-19 are considered allowable since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. The prior art does not teach the claimed invention having in combination with other features including the specific structure connection of each cell having : a first transistor (first nonvolatile memory element) having a control gate coupled to a word line, a first terminal coupled to a first bit line, and a second terminal coupled to a first node; a second transistor (second nonvolatile memory element) having a control gate coupled to the word line, a first terminal coupled to a second bit line, and a second terminal coupled to the same first node as the first transistor; a third transistor (first switch) having a control gate coupled to a control line, a first terminal coupled to the first node, and a second terminal coupled to a voltage source; and a fourth transistor (second switch) having a control gate coupled to the same first node as the first

transistor, a first terminal coupled to the voltage potential and a second terminal coupled to a match line.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
